

Durasteel ES

We've taken our years of experience in the custom design and manufacturing of quality prefabricated buildings to create the newest addition to our ever growing line of modular and prefabricated building solutions. Durasteel ES is a heavy duty, all steel enclosure, designed to provide instant shelter for your equipment at an affordable price.

Use Durasteel ES to provide a rugged and dependable outdoor safeguard for your expensive outdoor equipment against vandalism, theft and the elements. The insulated double wall and ceiling construction also provide excellent protection from excessive noise while aiding in maintaining an ambient temperature inside the enclosure for optimum equipment performance. These enclosures are shipped to your site fully assembled and ready for immediate use and are ideally suited for an endless array of outdoor equipment shelter applications.

1. 2" thick walls include a solid R-9 insulating core
2. Optional 3" thick walls include an R-13 insulating core
3. Impact and corrosion resistant 14 gauge galvanealed steel exterior and 16 gauge interior surfaces are electrostatically painted with a rust inhibitive primer and finish coat of durable air dry acrylic enamel.
4. Optional chemical and impact resistant Fiberglass Reinforced Plastic (FRP) over plywood interior surface.
5. Ceiling includes R-19 / 6" thick blanket insulation.
6. Gabled roof design provides excellent drainage and resists snow and ice build up.
7. Heavy-duty 18 gauge insulated steel swing door
8. Integral 16 gauge exterior roof with a water resistant coating then painted to match the exterior wall surface.
9. Welded steel lifting lugs on all corners
